

Table Set-up for Passover Seder

Head Table
(no one sits at this table)

Round tables can be used instead of rectangular tables (*with the exception of the head table*). The primary objective is to *not* set places at the participant tables that would put people with their backs positioned toward the head table.

- Each table should include everything specified on the Preparation Checklist and arranged as follows:
- Plate of Matzah Bread
 - Candle holders and candles
 - Seder Plate
 - Matzahtosh

X = Don't put a chair in that spot
